# STEALTH

The Ultimate Fragrance Diffuser

SIMPLE TO SET UP AND EASY TO USE

The HYscent Stealth is the most versatile smart fragrance machine.

FAN INTERVAL

Select the fragrance **INTENSITY** level: Select either **LOW**, **MEDIUM, HIGH** or **CONTINUOUS.**

LOW: The fan will operate for 1 minute in a 10 minute repeating cycle. The fragrance will remain in the air providing a consistent low intensity aroma impact according to the programmed settings.

MEDIUM: The fan will operate for 2 minutes in an 11 minute repeating cycle. The fragrance will remain in the air providing a consistent medium intensity aroma impact.

HIGH: The fan will operate for 2 minutes in a 7 minute repeating cycle. The fragrance will remain in the air providing a consistent high intensity aroma impact.

CONTINUOUS: Fan will operate continuously until switched off. Best for manual use in extreme malodorous circumstances.

FAN SPEED - FRAGRANCE SPREAD

Select from 7 different fan speeds. The higher the speed, the further the fragrance will travel.

To adjust speed, press either the **MORE** or **LESS** buttons.

HINT: When setting up the Stealth for first use, select HIGH fan speed to fill the area with fragrance quickly. Once area is filled, lower fan speed to sustain fragrance presence and preserve longevity of fragrance refill.

TIMER ON OR OFF

Press **TIMER On/Off** button to select function.

TIMER ON: The Stealth operates according to the pre-programmed settings.

TIMER OFF: The Stealth will operate 24/7 according to the fan interval settings.
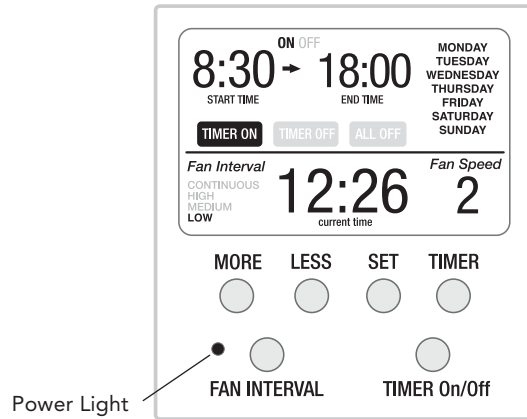

ALL OFF: The Stealth is OFF.

REMOTE CONTROL

The Stealth comes with a remote control handset which controls **FAN SPEED** and **FAN INTERVAL** settings. You may also turn the power on or off.
